Address Correction Requested

Rosemont Canyon Score-0
Sunday, March 19, 1989

Directions: From Tucson, take I-10 east to State Hwy 83 (exit 281). Go south approximately 14.5 miles. At milepost 44, take the unsigned dirt road to the west (this is 2.6 mi. south of the roadside picnic table and is different from last year's location). Follow signs to registration.

Start Times: 9:30 - noon. Course closes at 2 PM.

Fees: Individuals= \$4.00, Teams= \$6.00. TOC members receive a \$1.00 discount.

Course setter Kelly Cook has organized a score-0 for us. This means you need to BRING A WATCH. A score-0 is a time limit event with more controls than you can possibly find in the allotted time. Controls are assigned point values and your objective is to maximize your point total in the time allowed. But you must return before your time runs out or points will be subtracted from your total, so the watch is very important. Competitive tips: your game strategy must be flexible; abort controls that prove elusive; make certain your last controls are near the finish so you can quickly dash in before time expires.

Our Rosemont Canyon area at 5000 ft. elevation is in the oak/juniper zone. It shares many similarities with our Cottonwood Wash site of last month: numerous washes, many mesquites, some acacia, grasslands, and cottonwood trees. This would be an excellent area to camp out in March so if you're interested, why not call meet director Dale Bruder at 326-4069. Maybe Tim Fahlberg can be persuaded to bring his telescope to focus on the craters of the moon (three days before full moon), or Jupiter and its moons.

Tucson Orienteering Club Membership Application

March

Fill out the application, make check payable to: Tucson Orienteering Club, and mail to:
Tucson Orienteering Club, P.O. Box 13012, Tucson, Az. 85732

Check One: New Member Renewal _____
Date on mailing label

Members receive a monthly newsletter, have voting privileges, and receive a \$1.00 discount at all club sponsored events and meets.

X-Large 45-48

Change in distribution of newsletter

To save money, we will change the basis for deciding who is sent the newsletter. In the past, we have paid for a bulk mailing permit, which gives us a cheaper rate if we send out at least 200 newsletters per mailing; so for several years we have kept the mailing list at just over 200. This number has included several dozen people who are evidently not interested in our activities, at about \$4 a year per person. It would cost about as much to send out 140-150 newsletters at the regular postal rate as 200 at the reduced rate, and we can trim the mailing list below this level by removing inactive or disinterested people. Starting in May, 1989, only current club members, or people who show an interest in Orienteering as judged by relatively frequent attendance (3-4 meets/year) or help in putting on meets, will be assured of getting the newsletter. Those requesting complimentary copies will receive them for two or three months. Next month's newsletter will be your last if you don't join up or show up. We hope you do!

--John Little, membership chairman

Congratulations to Dale Bruder's Pima College orienteering class. They're already running courses and winning ribbons!

- Orienteering meets coming up:
- April 15-16 - Arizona State Championships at Cave Creek
 - April 25 (Tuesday) - Night-O at Lincoln Park
 - May 21 - Bear Wallow
 - June 18 - to be announced
 - June 28-30 - USOF Convention, Colorado Springs, CO
 - July 1-2 - Convention A-meet, CO

TUCSON MOUNTAINS MEET. Sunday. February 12th
 meet director. Dale Cole

A few competitors said they could spot course setter Ed Rawl's blue surveying tape way before they could see the controls. I for one am grateful he did that because it made placing the eighteen controls out in the terrain the day before a lot easier. I was sorry to disappoint one team on the intermediate course who thought that the word, "WATER", in parenthesis below the control clue, "BEND IN WASH", meant that the wash was running with water. They discovered jugs of drinking water instead. I'm glad nobody ran into any rattlesnakes. A few years ago in the Spring at this same site, one orienteer called it quits after encountering his third rattlesnake!

I want to thank Lee North, Rachel Gelbin, Marilyn Cleavinger, and Dale Bruder for helping me with meet registration and timing. Special thanks to Mike Pfeifer, Keith McLeod, John Little, and Dan Cobbledick for picking up the controls for me after the meet. I sure didn't feel like going out into the terrain a fourth time!

Fair skies and warm weather greeted the 47 participants who came to try out this brand new map with 5-foot contour intervals. Many were astounded by the exactness of terrain detail due to the close contour intervals- even tiny re-entrants showed up. Others enjoyed watching competitors scrambling across the hillside as visibility from the start/finish area was excellent. Meet director and course setter John Maier thanks all those who filled in as volunteers without a moment's notice; among them were Marilyn Cleavinger, Rachael Gelbin, Dale Bruder, Bernice Little, and John Little. Many people turned out the day before for the tour of the solar rammed earth building and Tim Fahlberg treated 12 "O" campers to great views of the night sky through his telescope. Hey, let's make these camp outs a regular meet activity!

CLUB POTLUCK & SOCIAL GATHERING

Club members have been expressing interest in having some social functions in addition to our monthly "O" meet. For starters we're having a pot luck on Tuesday evening, March 21st at 7pm at the home of Keith McLeod (571-1155) at 7272 East Rainbow Canyon Drive. To get there, take Sabino Canyon Road to Kolb Road. Go north on Kolb to the first right after Snyder Road, and follow to the end of the cul-de-sac. Bring a dish to share (sign-up sheet at March 19 meet) and whatever beverages you wish to consume. For entertainment we'll have an overhead projector to use to critique route choices of the previous event and a slide projector to view some excellent hiking locations. Bring whatever forms of entertainment you think might be fun. See you all there. And remember, event held rain or shine!
