## Catalina State Park Results --11/21/10

### Details

What could have turned out to be a windy, cloudy, cold day turned out to be a windy, not so cloudy, not as cold day at Catalina State Park. The people that battled through the rocks and cactus this time were the ever faithful Tucson members, non-members, and also other competitors from SDO (San Diego O-Club), SVO (Susquehanna Valley O-Club), CAOC (Chicago Area O-Club), RMOC (Rocky Mountain O-Club), GPHXO (Greater Phoenix O-Club), and more! And a shout out would like to be given to the ROTC students that came out- great job!

This year, we ended up logging 81 total entries (2 less than last year), but all in all, we recorded 88 different individuals running courses whether in teams or as individuals (not counting the individuals who ran multiple courses more than once of course). Most all of these individuals seemed to have thoroughly enjoyed themselves despite the fact that many minor wounds needed to be nursed and the fact that the 'rolling rankings' hung up by the yellow string at the start and finish tent only actually got rolling a couple times. And to think what it would have been like if there was food in addition to everything else....

Finally, thank you to all of our volunteers! This meet, the biggest meet that the club hosts annually, was put on by approximately 8 people- that makes for a 1:11 volunteer to participant ratio (a fairly successful ratio if you ask me!). The two main event organizers out of these 8 volunteers were **John Rickel** (first-time meet director) and **John Pascal** (long-time course setter for Catalina State Park). Both of these volunteers put in many hours of work to provide you with the event that you experienced. In addition to these two were more hard-working volunteers: **Peg Davis**, who led *two* beginner's clinics; **Claudia Rickel**, running registration along with John Rickel; **Jodi Rickel** and **Jaxon Rickel**, running timing (starting and finishing) with the help of John Pascal and Ludwig Hill; **Ludwig Hill**, for being a consultant (for one, this article wouldn't be here if he hadn't showed me how to post it); and, for helping out with control retrieval, **Katie Follette** (helping out even after finishing half of the motala), **Mark Parsons** (helping out after running the green course), Ludwig Hill (helping out after running the red course), **Jonathan Rickel** (helping out after running the white course), John Rickel, Claudia Rickel, and Jaxon Rickel. Thank you all for your help!!!

### Results:

To begin with, a couple last shout outs need to be given to the top finishers in each category so here we go:

\*\*These orienteers were unable to find and punch the last control marker because it was not hung exactly at the location shown on the map and was partially hidden by unmapped vegetation. However they were able to show sufficient evidence that they had visited the correct terrain feature and location on the map.
