Monthly  
Meetings

Time to get rolling again-- Last month we decided that regular monthly meetings, separate from the meet-planning meetings, were needed. We selected the 3rd. Monday of each month as meeting day. Meeting dates for the rest of 1984 are:

August 20  
Sept. 17  
Oct. 15  
Nov. 19  
Dec. 17

The meetings are held at 7:30 PM in the Great Western Bank building (Broadway and Rosemont), Suite 630. Mark your calendars and plan to attend! We need your input and energy to keep orienteering alive and growing in Southern Arizona.

USOF

We are pleased to announce that our club has met the requirements for membership in the national organization- the United States Orienteering Federation-. This affiliation brings us many benefits, one of the most important being access to group insurance. Those of you who've been on the planning committees know that getting liability insurance for our meets has been a sticky problem. That worry is now behind us as we are now covered under the USOF policy, which is carried by the Atlanta International Insurance Co.

USOF membership for individuals is \$15.00 per year and brings you lots of information about orienteering in general and about other clubs and national doings.

COMMITTEES

Question: "What organism has been described as having six or more legs and no head? Right! A committee. However, its also true that "many hands make light work", and we have lotsa work for lotsa hands. The club has 7 committees that need members. Some of these are organizational and some are planning types. If you are interested (and willing to commit some time) in getting behind the scenes of an orienteering meet or in helping create a strong (and so far the only) orienteering club in Arizona, then you are welcome and needed. If you can't make this Monday's meeting, but you definitely want to be on a committee,

please contact one of the officers and tell them what you'd like to do. Phone numbers to call:

Barbara Grandstaff 742-7953

Dennis Orrico 790-2201

Future  
Orienteering  
Meets

Got a favorite hiking area or an area you'd like to get to know better? It might make a good place for an orienteering meet. The club wants to run 10-12 meets each year and that covers a lot of territory. We're always on the look-out for new places to go. Please bring or send us your suggestions for meet sites.

Next  
Orienteering  
Meets  
September 9

Our next orienteering meet will be held at Bear Wallow Recreation Area, on September 9. This is on Mt. Lemmon at approximately milepost 22 $\frac{1}{2}$ . Across the highway from Spencer Canyon. We need people for the following committees: Courses, Maps, Publicity, Start/Finish.

October 21

This will be a biggee (we hope). Co-sponsored and for the benefit of the National Arthritis Foundation. Its eight weeks away, and not too soon to be planning for it, since site selection and maps haven't been decided yet. All committees are open.
