Sunday October 20th is the date for the first Arizona Orienteering Championship. The meet will be held at Saguaro East Park (eastern end of Speedway Blvd.). Starting times will range from 9:30 A.M. to 12:30 P.M. Three courses will be offered: Advanced, Intermediate, and Basic. Each course will have a man, woman and team category. Ribbons will be given to the first three finishes.

Bring a friend. Clinics will be held during the morning to teach map and compass skills to beginners, as well as to others who wish to brush-up on their skills. Compasses can be rented for \$1.00. Course fees will remain the same: \$3.00 for individuals and \$6.00 for teams - Tucson Orienteering Club Members pay \$1.00 less.

Results of  
October Meet

Ideal weather said the 60 Orienteers as they searched for controls at the Bear Wallow Campground up on Mt. Lemmon. Visitors from Fort Huachuca claimed 3 blue ribbons: Richard Whipple, Phil and Kathy Grant.

John Maier returning from Oregon arrived to place third in the Advanced category. He was replaced as a consistant winner by Grant and Dale Cole. Cole, so pleased at finally beating Maier, is having his map and score card bronzed.

Tracey Shipley, faithful secretary who types the newsletter and other club correspondence finally tried Orienteering. A blue ribbon rewarded her efforts. Her bosses, McLeod and Orrico stated firmly that the rumor, if she didn't show up at the meet it would cost her job as a scurrilous rumor.....

Congratulations also to other blue ribbon winners Hamilton & Geranis, Boyko & Malcuit, Botsford & Bishop & Sheryl Houser. As well as John Little and Keith McLeod, co-meet directors.

Answers to the John Disley exercises that follow:

1. 62°	2. 160°	3. 224°	4. 180°	5. 80°
1. D	2. C	3. A	4. E	5. B
1. C	2. F	3. B	4. A	5. D

Find the compass bearings in the diagram on the right.

Go from S to 1; then 1 to 2; 2 to 3; etc. Read off the bearings and write the answers in your books. If you have any difficulties—check back to stages 1 and 2 on page 18.

Now orient the 'map'—i.e. this page of the book by twisting the book until the top edge is towards north. You can use the compass to find north.

Leave the book on the desk and stand at the side of the desk so that you can look over control S towards 1. Now set the dial of the compass so that you have your answer S to 1 opposite the direction of the travel arrow.

Next we carry out stage 3 of the technique we learnt on page 18.

When you look up you should be looking directly towards control 1.

If you are successful continue this exercise for the other bearings. Don't forget to keep moving round the desk to stand behind the next starting point.
